12		In Enumerating the Township of San Jose it was found to be utterly impossible											
13		to distinguish the "City" of San Jose from the Balance of the County. Owing to the fact											
14		that the "Corporate limits" of the City are very large and embrace a great many fruit											
15		farms and Orchards, and the "limits" not being sufficiently well defined to enable one to											
16		know when inside or when outside. But from the best information I can gather											
17		I am inclined to the belief that the actual population of the "City Proper" is about 3,000											
18		roads all told.											
19		The same argument will apply to the Town of Santableness which contains											
20		in the "Town Proper" about 900 souls.
